# **1 General**

## **1.1 Information**

This 'How-To-Do' describes, how you can install the full-version of WinPLC7.

## **1.2 Reference**

In this 'How-To-Do' the principal procedure is described by means of an example.

Liability for material defects and defects of this documentation, especially for the correctness, accuracy, freedom and protection of third party rights, completeness and / or usability - except for willful misconduct or bad faith - is excluded.

## 2 Installation Instructions

### 2.1 Requirements for the Installation

Operating System Windows 98/ME/2000/XP/NT 4.x/Windows7

Installation CD

Serial number of WinPLC7 (is contained in the license letter)

Valid email address

### 2.2 Installation Instructions

1. Start the installation of WinPLC7 via executing WinPLC7-V5-033.EXE from the included CD-ROM. Alternatively you can download the current software from <http://www.winplc7.com/v5/vipa-download.htm>.
2. After the installation of the software, the demo version is activated at first. With the following steps you can switch the demo version to a full version.
3. Please activate WinPLC7
4. Please open the example project via "File -> Open/Create project "
5. Then please select the menu item "Extra -> Other -> Enable program functions". A dialog appears; for the full-version please enter "enable" and confirm with "OK".
6. Another window appears with an input field for the serial number. Enter the number from your license envelope and fill in the remaining fields including email address. Then, please click the button "Activating code via Internet". You should receive the release code via email shortly or it will show you in the window. Fill in the activating key in the field "Activating-Key".
7. Then confirm with "OK".
